

Thunder Bay District Housing Corporation

Société de logement du district de Thunder Bay

October 23, 2012

TO ALL TENANTS

Please be advised that effective Wednesday October 24, 2012 for the remainder of the week – and into next week if necessary – Thunder Bay District Housing and Canadian Pest control, will be entering EVERY unit at the Royal Edward Arms to do an inspection concerning bed bugs.

In order to help with this procedure we ask that you do the following:

1. Remove all bedding from all beds
2. Stand up all cushions on your couches and chairs
3. Remove some of the clothing from your dresser drawers.

We thank you in advance for following these procedures, as we are trying to stop any bed bugs from being in the building. The only way we can be successful is if everyone follows through with this.

Thank you.
